

Snow - Blade

Type L-SK for Tractors, Fork-Lifts, Yard loaders and Tichel-Trac

With the L-SK snow blade, you, being a farmer with a consciousness for price and quality, buy a machine that fully meets your requirements. Because of the various working widths of the L-SK, you can attach it to tractors, but also to yard loaders, small fork-lifts and to the Tichel-Trac. By multiple optional attachment systems the L-SK can be perfectly mounted onto your carrier-vehicle. Equipment of the basic machine incl. spring segments, vulkollan coating, mechanical angling and height adjustable sliding runners.

Attachment systems:

- Three-point linkage or on option A-frame (Basic equipment)
- Yard/front loader attachment
- Fork-tines

Options:

- Hydraulic angling (additional double-acting control circuit required)
- Level compensation
- Road traffic equipment (Signal flags, -holders, side lamps)
- Special equipment on enquiry!
